

# CONTENTS

## MATHEMATICAL MODELING

<i>Dzaganiya D.Kh., Bukunov S.V.</i> Interactive educational computer game for programming skills developing .....	4
<i>Minazetdinov N.M.</i> On the problem of electrochemical sharpening of cutting tools.....	22
<i>Mukhin A.A.</i> Assessment of the limits of applicability of the Media Redundancy Protocol for the IEC 61850 processor bus with a time limit of < 3 ms .....	31

## COMPLEX SYSTEMS MANAGEMENT

<i>Arnawtee M.M.M., Majid H.A., Zaiter M.F.Z.</i> Development and implementation of machine learning models for inventory forecasting in technology companies .....	46
<i>Bakulin A.Yu., Gusev P.Yu., Lvovich Ya.E.</i> Optimizing the development of a digitalized organizational order servicing system based on integration with machine learning of predictive models .....	68
<i>Zapryagaev F.A., Nikolaev A.A.</i> Development of criteria for assessing the effectiveness of enterprise critical information infrastructure using control and monitoring tools.....	79
<i>Krasyuk P.S., Eletskov O.S., Alashev V.V.</i> Cybersecurity strategies for 5G distributed networks in critical infrastructure .....	89
<i>Lokhvitskiy V.A., Yakovlev E.L., Zotkin M.Yu., Bushev I.V., Fedorov A.K.</i> Software complex for automatic detection of changes in satellite and aerial photographs with data integration into the geoinformation system .....	99
<i>Lvovich Ya.E., Pupykin A.N.</i> Optimization of management decision-making for the distribution of development resource provision within a given planning horizon under information interaction between producers and consumers.....	116
<i>Mukhutdinov A.R., Minibaev A.A., Mukhutdinov T.A.</i> Modeling the compressive strength of materials using modern information technologies .....	126
<i>Polyakov N.A.</i> Managing business processes of a telecommunications company based on a cognitive BPMN+ model .....	134
<i>Spirichev I.I., Labunets L.V.</i> Architecture of face recognition systems: Processing stages and classification of methods .....	146

## INFORMATICS AND COMPUTER ENGINEERING

<i>Goryachkin B.S., Savelyev A.A., Lobanov D.S., Fonin M.A.</i> Classification and Comparative Analysis of Machine Learning Methods for Processing and Modeling of Oculomotor Activity .....	160
<i>tIevlev K.O., Gorodnichev M.G.</i> Comparative analysis of modern open table Formats: Apache Iceberg, Apache Hudi, Delta Lake, Apache Paimon .....	170
<i>Tikhonov D.V., Arshinov N.P.</i> Method for improving the effectiveness of training deep neural networks on small samples using data augmentation techniques .....	189
<i>Recommendations for the authors</i> .....	197
<i>Contents</i> .....	200
